Dear Drew,

This is to confirm our conversation today. We find no basis for currently classifying any of the CIA information contained in your internal memoranda of 21 and 22 March 1967, concerning anti-Castro activities. As most of this information has been published officially, any basis that previously existed for considering them classified no longer applies. In conveying this information it should be noted that some of the statements contained in the memoranda may not be accurate.

Very truly yours,

S. D. Breckinridge

<p>We have reviewed the following FBI documents and have found no basis on which we could support the continued classification of the documents:</p> <p>a) Assassination of President John Fitzgerald Kennedy, November 22, 1963, Dallas, Texas (based on FBI interview of Attorney Edward P. Morgan on 20 March 1967)</p> <p>b) FBI Memorandum, 22 March 1967, from A. Rosen to Mr. DeLoach, same Subject.</p> <p>During the review copies of the Jack Anderson articles of 23 and 24 October 1978 and the pertinent portion of the Church Committee interim report, "Alleged Assassination Plots Involving Foreign Leaders", were also reviewed to determine if any of the information contained in the FBI memoranda warranted continued classification. Although we do not agree with portions of the FBI memoranda, [redacted]</p> <p>[redacted]</p> <p>Despite these inaccuracies there is no justification to maintain the classification of the information pertaining to CIA since it has been widely disseminated in the Jack Anderson columns and the Church Committee interim report.
